---

Experienced Software Engineer skilled in React.js, Node.js, and Next.js, with a strong background in developing scalable web applications and creating dynamic data visualizations. Adept at building reusable components and optimizing code performance. Eager to leverage technical expertise and collaborative skills to contribute to a forward-thinking team.

## Experience

**AUG '23 - PRESENT**

**Software Engineer** | Codelogicx, Kolkata, West Bengal

- Served as Lead Frontend Developer, guiding UI architecture and component strategy.
- Reviewed code of fellow developers to ensure consistency, performance, and adherence to best practices.
- Implemented dynamic data visualizations using Chart.js in a React-based project to meet diverse reporting needs.
- Built a flexible report generator with integrated charting capabilities for real-time insights.
- Developed reusable, modular components for a scalable and maintainable codebase.
- Reduced reliance on third-party packages by building custom utility functions.
- Wrote unit tests to ensure code reliability and maintainability.

**JUL '22 - AUG '23**

**Software Engineer** | Collegify, Kolkata, West Bengal

- Engineered scalable, component-based user interfaces with React.js for optimal performance across devices.
- Designed user interfaces and flows using Figma.
- Debugged and resolved UI/UX issues for smoother interaction.
- Integrated Google Calendar API to enable automated meeting scheduling and calendar event management using Google Cloud services.

**AUG '19 - DEC '21**

**IT Engineer** | Abdullah Rashid And Dossary, Dammam, KSA

- Developed the official website for Gulf Gasket Factory, a subsidiary company.
- Developed the Sales Analyst application end-to-end, including setup, troubleshooting, and performance enhancements.
- Coordinated directly with Saudi Aramco to ensure alignment with project requirements and communication flow.
- Assisted in cybersecurity implementation and documentation aligned with industrial standards.
- Involved in procurement and workflow processes using **SAP Ariba**.

**DEC '18 - AUG '19**

**Full Stack Developer** | Arthaduth Services PVT LTD, Kolkata, West Bengal

- Built and maintained full-stack web applications with end-to-end deployment and infrastructure management.

- Developed a loan eligibility calculator handling 80K+ bank records, with robust data analysis and reporting.
- Created a hybrid document tracking and collection app for streamlined field operations.
- Configured and managed servers, including DNS, SSL, and domain setup for secure hosting.

JAN '17 - DEC '18

**Full Stack Developer** | Andaman Live Holidays, Kolkata, West Bengal

- Developed dynamic websites using CodeIgniter and built reusable components to accelerate future development.
- Provided post-deployment support, including bug fixes, performance tuning, and ongoing maintenance.
- Managed domain services and administered Google Workspace (formerly GSuite) for email and productivity tools.

**Education**

NOV '17

**Bachelor in Computer Science**

Maulana Abul Kalam Azad University of Technology

**Skills**

HTML

CSS
